AMENDMENT UNDER 37 C.F.R. § 1.111

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This is in response to an Office Action herein, mailed 6 August 2004, time for response to which was set to expire 6 September 2004. Restriction was required among four groups. Applicants hereby elect to prosecute the claims of Group I, claims 1-11, drawn to a method to determine whether a first substance interacts with a second substance. This election is made without traverse with respect to Groups III and IV but with traverse with respect to Group II.

It is difficult to see how examination of Groups I and II together would place any kind of undue burden, or any burden at all, on the Office. Clearly if claims 1-11 are novel and inventive, where an assay is claimed, no further invention is required to use that method as a screening tool. Accordingly, reconsideration of the Restriction requirement as it applies to Groups I and II is respectfully requested.

Applicants will cancel the claims of Groups III and IV in response to this Office action.
